A Joyful Beginning

The month of June marked the beginning of a new academic session filled with excitement, smiles, and new friendships. Our little learners were warmly welcomed to the **Helping Hands family** with cheerful greetings and a vibrant atmosphere that made them feel comfortable and loved.

Seeing their happy faces and enthusiastic participation made the beginning of the session truly memorable. We look forward to a wonderful year of learning, creativity, and joyful experiences together.

The first few days were dedicated to fun-filled activities that helped children settle into their new environment. Through music, dance, storytelling, colouring, games, and interactive classroom activities, our tiny tots explored, learned, and built confidence while enjoying every moment.

HAPPY BIRTHDAY!

Young minds, bright creation

Creativity becomes meaningful when it inspires awareness and thoughtful action. This month, the themes "Save Water" and "Learning with Curiosity" encouraged young minds to express their ideas through insightful articles and vibrant paintings.

The articles reflected a deep understanding of the importance of conserving water, promoting sustainable habits, and recognizing our shared responsibility towards the environment. The theme of curiosity inspired thoughtful reflections on the joy of learning, the value of asking questions, and the pursuit of knowledge beyond the classroom.

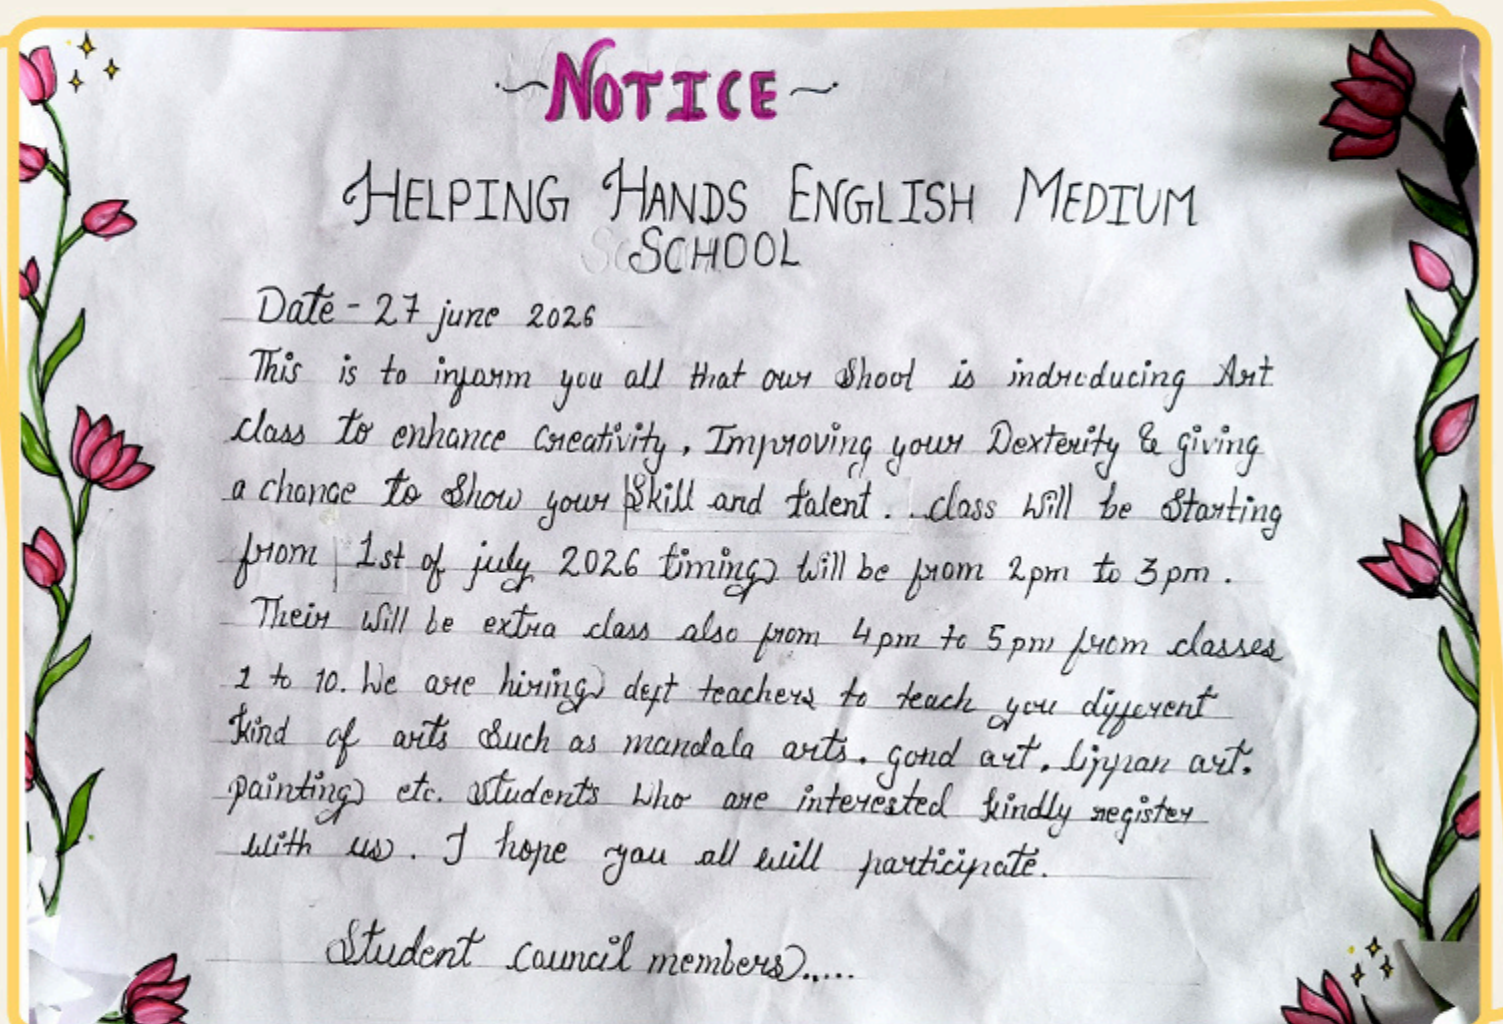

The paintings beautifully captured these ideas through colours, imagination, and artistic expression, conveying powerful messages with creativity and originality.

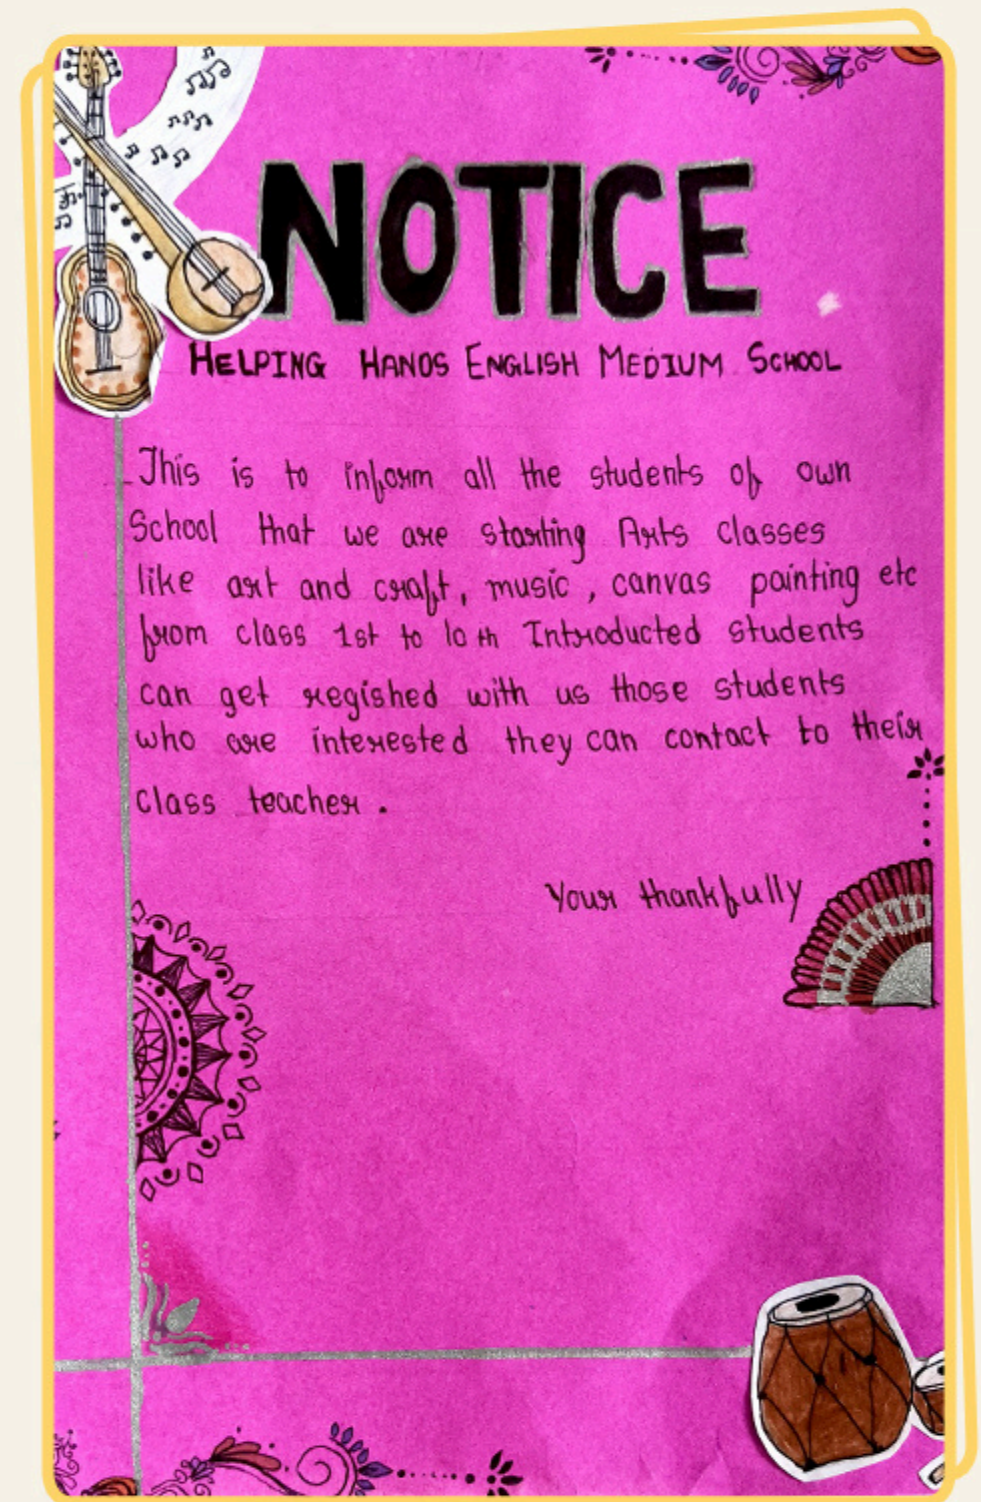

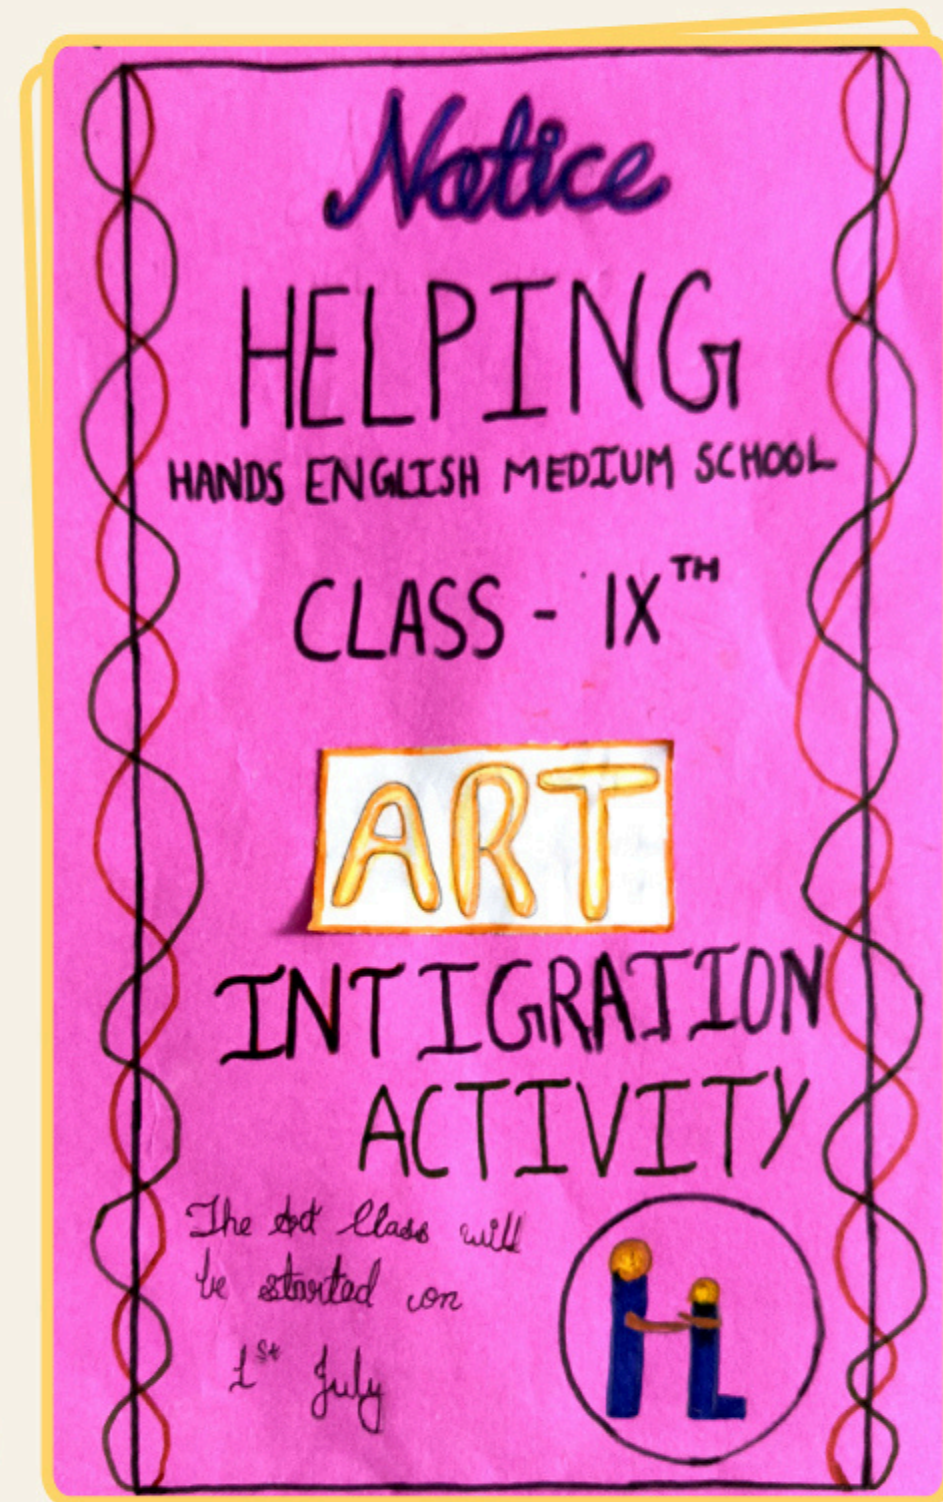

Together, the articles and artworks celebrate awareness, innovation, and the spirit of learning, reminding us that every thoughtful idea and creative expression has the power to inspire positive change.

Art-Integrated Learning:

Notice Writing

Notice writing became an engaging and creative learning experience through an art-integrated activity. Students of Class IX combined their writing skills with artistic expression by designing attractive and informative notices on a variety of real-life topics.

This activity encouraged learners to focus on the essential elements of notice writing while enhancing their creativity, presentation skills, and attention to detail. By using illustrations, colours, and thoughtful layouts, students transformed simple notices into visually appealing pieces of communication.

The activity not only strengthened their understanding of the format and language of notice writing but also improved their confidence, imagination, and ability to convey information effectively. It was a wonderful blend of language learning and creativity, making the process both meaningful and enjoyable.

The Enrichment Zone

At **Helping Hands English Medium School, Kharora**, we believe that education extends beyond textbooks. Our enrichment programmes provide learners with opportunities to discover their talents, develop essential life skills, and achieve holistic growth in a nurturing environment.

Yoga sessions, led by Mr. Shekhar Yadav, promote physical fitness, mindfulness, and inner well-being. Under the expert guidance of Mr. Virendra Mirjha and Ms. Prabhjot Kaur, music classes encourage creativity

rhythm, confidence, and self-expression. Karate training, conducted by Mr. Jasraj Prasad, instils discipline, focus, resilience, and self-defence skills, empowering learners to face challenges with confidence. At **Helping Hands English Medium School**, every co-curricular activity is designed to complement academic learning and foster confidence, teamwork, leadership, and creativity. Through these enriching experiences, we strive to nurture well-rounded individuals who are prepared to excel both inside and outside the classroom.
